

# maynard SELECT

## THE HVAC CONSTRUCTION TEAM

- Pat Campbell, PE, has over 30+ years of HVAC/plumbing mechanical experience delivering value
- His diverse team delivers installation of **conventional and geothermal** HVAC systems and **plumbing** systems. His team can assist in system development, installation, and planned maintenance
- Maynard Select is the premier provider of geothermal HVAC installations for homes and businesses in Tennessee
- The Design Build Process is what sets Maynard Select apart from our competition. When your mechanical Contractor is also your Mechanical Designer, the client realizes a one stop efficiency in project delivery.
- We have a diverse set of proven project managers and superintendents with proven skills in HVAC, ductwork and piping as well as plumbing
- Our in-house estimator finds value engineering opportunities to present our clients options to fit every budget
- We are accredited by IGSHPA (International Ground Source Heat Pump Association) for Geothermal HVAC systems

Maynard Select has an unlimited CMC and Electrical License (License # 57525) and is fully bondable.

## OUR EXPERIENCE

- Installed geothermal HVAC at the up-scale Rokeby Condominium complex in Nashville:

*"All aspects of the conversion were completed on-time and in budget... During the hottest days (109 F one day) in Nashville recorded history, the system maintained the cooling requirements of the Rokeby. Based on our experience, I can recommend Maynard Select Geothermal and Solar for their expertise without reservation."*

- Board of Directors, Rokeby Condominium Association
- Installed hybrid geothermal HVAC system for the Lawrence County School system in 2012
- Mechanical & Plumbing contractor for Abe's Garden, the first Alzheimer's Full Service Mental Care facility in the U.S.
- Mechanical and plumbing contractor for the Franklin United Methodist Church, an 86,000 square foot facility
- Performed a major HVAC installation of the Highland Heights school project, a major renovation of a historical building
- Mechanical and plumbing contractor for Nashville's premier Jeff Ruby Steakhouse, an 10,000 square foot facility
- Over 75 years of quality, reliability and trust
